# Let's Create a Museum About Us

The first in Ukraine interactive museum of gender equality  
and history of women's and gender movement

2008 is the year of the 60th anniversary of the Universal Declaration of Human Rights, a document, which proclaimed that all human beings have fundamental rights and freedoms without distinction of any kind, including sex.

2009 is the year of the 125<sup>th</sup> official anniversary of women's movement in Ukraine.

In celebration of these important dates Kharkiv Gender Recourse Centre decided to create the first in Ukraine Museum of gender equality and history of women's and gender movement.

This idea has been supported by UNDP (Program for Equal Rights), Kharkiv Women's Organization «Krona», West-Ukrainian Center « Women's Perspectives», «Adaptation Centre for Men» (Ternopil), All Ukrainian Non-Government Organization «Women's consortium of Ukraines», and other Ukrainian NGOs.

The main goal of the Museum is to draw Ukrainian's people attention to gender issues and to fill «empty pages» of Ukrainian and world women's history. Such

a museum will provide knowledge about gender transformation in the world. Its interactive expositions will allow visitors to see and «to feel» gender structure of society in history.

Gender Museum will help to strengthen cultural links between Ukraine and other countries, to consolidate a unity between Ukrainian and world women's movement and to inform Ukrainian media and society about the outrageous cases of gender inequality in Ukraine and in the world.

More than 200 exhibits (photos, pictures, souvenirs, letters, CDs, books, movies, presentations, interviews, private things etc.) related to Ukrainian and International women's and gender movement, outstanding women, women's and gender NGOs, etc. have already been collected.

The first in Ukraine «Gender Museum» invites friends and partners for cooperation and interaction.

Please, pass this information to your partners and become a participant of the project «Let's Create a Museum About Us».

## i Project partners:

Gender Studies Centre,  
Kaunas University of  
Technology, Kaunas,  
Lithuania
