USA

anarcha project //www.anarcha.org

although anarchism is, in theory, inherently feminist, the reality is often quite different. there is a need to bring issues of dominance, alienation, lack of control and masked hierarchy more into the anarchist sphere as well as for creating places to share information, struggles and ideas.

this is for sure not a comprehensive list of anarcho-feminist collectives - if you know of more, send us an update.

erinyen anarcho-feminist collective berlin
