Workshop (16 participants, 3 hours) “*Waking up the archetype of the spinning-wheel spinner – a comeback to women's specimen model of creativity*”- **Anija Miłńska** (Women Association Dakini).

Spinning-wheel spinner, the one who spins the thread of life and death weaving with it a pre-patterns – the structure of the world, is a powerful symbol which we encounter in almost every culture. This symbol is an embodiment of women's power of giving birth and creating, giving life and shaping it. How can we reach this spinning-wheel spinner's power? How to arouse it in order to restore our certainty of having influence on our own life and the world we live in?

The participants of the workshop will have an opportunity to acquaint themselves with the spinning-wheel spinner who will be presented during the lecture. They will also have an opportunity to discover their needs, restore or deepen their creativity and the feeling of being able to shape their own lives.
